

REFERENCE SHEET

Booking Price Calculation

Extended stays, entrance fees, and the 50% down payment

What this covers. Every peso on a Camp Ba-long booking comes from two charges: the accommodation rate and the entrance fee. Both are charged **per night**, so a three-night stay is three times a one-night stay. Half of the resulting total is collected as a down payment when the unit is reserved; the other half is settled on-site at check-in.

Sections 1–3 are the rules and the rate card. Section 4 works six problems end to end. Section 5 is a blank worksheet.

1 The equations

Work top to bottom — each line feeds the next.

nights = check-out date – check-in date
unit total = Σ (nightly rate $\times$ how many units) $\times$ nights
rate per head = schedule entrance rate $\times$ nights
paying heads = pax – kids – free-2
entrance total = (paying heads $\times$ rate per head) – senior discount
stay total = unit total + entrance total
down payment = stay total $\times$ 50%
balance on-site = stay total – down payment

What the terms mean

Term	Meaning
nights	Whole calendar days between the two dates. Aug 6 → Aug 9 = 3 nights. A Day Time booking has no nights and always counts as 1.
pax	The whole party. Kids and seniors are counted <i>inside</i> it, never added on top.
kids	Aged 7 and below. Always free — no entrance fee, ever.
free-2	The rate card's "free entrance for 2 pax" inclusion. Applies each night, to up to 2 <i>non-kid</i> heads (regular heads first, then seniors). Not available on Tent Pitching, Cottage or Pavillion.
senior discount	20% off, for senior heads still paying after free-2 has been applied — a senior covered by free-2 is already fully waived and is not discounted twice. Senior Citizen ID required on-site.

Why both sides scale. A second night is a second night of everything: the unit is off the market again, and the party uses the pool, jacuzzi, showers and parking again. So the entrance fee is multiplied by the nights just as the room rate is — and the free-2 inclusion is granted on each of those nights, the same way the rate is charged on each of them.

2 Entrance fees

Charged per head, per night. Which rate applies depends only on the stay schedule.

Stay schedule	Hours	Length	Entrance / head / night	Rate group
Day Time	10:00 AM – 5:00 PM	7 hours	₱150	day
Day and Night	10:00 AM – 8:00 AM	22 hours	₱350	overnight
Night and Day	7:00 PM – 5:00 PM	22 hours	₱350	overnight

Only the two overnight schedules can run more than one night. Day Time is a fixed same-day block, so it is always a single charge.

Entrance discounts, in the order they are applied

#	Rule	Effect on one head
1	Kid, 7 & below	Free. Removed from the count before anything else.
2	Free entrance for 2 pax (resort inclusion)	Free. Given to up to 2 non-kid heads — regular heads first, since that saves the guest more, then seniors.
3	Senior citizen, still paying after rule 2	20% off the rate for that head.
4	Everyone else	Pays the full rate per head, per night.

3 Accommodation rates

Per unit, **per night**. A unit is only offered under a schedule if it has a rate for that schedule — which is why Cottage and Pavillion are day-only, and the tents are overnight-only.

Day Time — 7 hours, entrance ₱150/head

Accommodation	Capacity	Rate per stay	Free entrance for 2 pax?
Table and Chairs	1–3 Pax	₱500	Yes
Teepee	4 Pax	₱900	Yes
A-House Small	4 Pax	₱1,450	Yes
A-House Medium	4–5 Pax	₱1,900	Yes
A-House Family	8–10 Pax	₱4,000	Yes
Cottage	8–10 Pax	₱2,000	No
Pavillion	10–15 Pax	₱4,000	No

Overnight — 22 hours, entrance ₱350/head/night

Accommodation	Capacity	Rate per night	Free entrance for 2 pax?
Teepee	2–3 Pax	₱1,600	Yes
A-House Small	2–3 Pax	₱2,250	Yes
A-House Medium	4–5 Pax	₱3,200	Yes
A-House Family	8–10 Pax	₱7,000	Yes
Small Tent	2–3 Pax	₱900	Yes
Big Tent	4–6 Pax	₱1,800	Yes
Tent Pitching	Any group size	₱500	No

No promo is running. Every rate above is the standing rate, and it is what a guest is charged today. When a promo is switched on in the dashboard it sits *beside* the standing rate rather than replacing it — the booking page then quotes the promo price and strikes the standing one through. Re-check this sheet against the dashboard before relying on it if a promo has since been started. Both overnight schedules share one rate table, so Day-and-Night and Night-and-Day cost exactly the same.

Where these numbers live. Rates and capacities come from the dashboard (Units → Manage) and are read live by the booking page — edit a rate there and the next quote uses it. The down payment is not computed by the website: it is a generated column in the database, $\text{round}((\text{price} + \text{entrance_total} + \text{food} + \text{spa}) \times 0.5, 2)$, so the figure a guest is shown and the figure staff verify against are the same expression and cannot drift apart.

Things that catch people out

Watch for	
1	Entrance is inside the 50%. It is not a separate charge collected at the gate. The down payment is half of the unit rate <i>and</i> half of the entrance.
2	Kids and seniors are inside the pax count , not extra heads. A party of 4 with 1 kid is 3 paying-eligible heads, not 5 people.
3	free-2 never stacks with the kids' exemption. Kids are already free, so the 2-head quota only ever goes to non-kid heads.
4	A senior covered by free-2 gets no 20% on top — that head is fully waived, so it drops out before the discount is worked out.
5	Rates are per unit, not per head. A group smaller than the unit's minimum still pays for the whole unit.
6	Food and spa join the same 50%. Order them before paying and they are inside the down payment; order them after and they are asked for separately, at the same 50%.
7	A booking is held for 10 minutes only. If the receipt is not uploaded in that window the unit goes back on the market automatically.

4 Sample problems

Each one is worked in full. The answer line is the amount the guest is asked to send when the unit is reserved.

Problem 1 — Three nights in a Teepee

Given. Check in **Thu 6 Aug**, check out **Sun 9 Aug**. Schedule: **Day and Night** (22 hrs). **1 Teepee. 3 pax** — no kids, no seniors.

Find. The down payment.

Step	Working	Amount
Nights	9 Aug – 6 Aug	3
Teepee, per night	standing rate, no promo running	₱1,600
Unit total	₱1,600 × 1 unit × 3 nights	₱4,800.00
Rate per head	₱350 × 3 nights	₱1,050.00
Paying heads	3 pax – 0 kids – 2 free-2	1
Entrance total	1 head × ₱1,050.00, no senior discount	₱1,050.00
Stay total	₱4,800.00 + ₱1,050.00	₱5,850.00
Down payment	₱5,850.00 × 50%	₱2,925.00
Balance on-site	₱5,850.00 – ₱2,925.00	₱2,925.00

Answer Down payment = **₱2,925.00** (stay total **₱5,850.00**)

Teepee holds 2–3 pax overnight, so 3 fits in one unit — no second unit needed.

Problem 2 — The same Teepee, two nights

Given. Same unit and party as Problem 1, but checking out on **Sat 8 Aug** instead.

Find. The down payment.

Step	Working	Amount
Nights	8 Aug – 6 Aug	2
Unit total	₱1,600 × 2 nights	₱3,200.00
Rate per head	₱350 × 2 nights	₱700.00
Entrance total	1 paying head × ₱700.00	₱700.00
Stay total	₱3,200.00 + ₱700.00	₱3,900.00
Down payment	₱3,900.00 × 50%	₱1,950.00

Answer Down payment = **₱1,950.00** (stay total **₱3,900.00**)

Note how one fewer night moves both charges: ₱1,600 off the unit and ₱350 off the entrance.

Problem 3 — A family with a kid and a senior

Given. Check in **Thu 6 Aug**, check out **Sun 9 Aug** (3 nights). Schedule: **Day and Night**. **1 A-House Family**. **10 pax** — of whom **2 are kids** (7 & below) and **1 is a senior**.

Find. The down payment.

Step	Working	Amount
Nights	9 Aug – 6 Aug	3
Unit total	₱7,000 × 3 nights	₱21,000.00
Rate per head	₱350 × 3 nights	₱1,050.00
Party breakdown	7 regular + 1 senior + 2 kids	10 pax
Free — kids	2 heads × ₱1,050.00	– ₱2,100.00
Free — free-2	2 regular heads × ₱1,050.00	– ₱2,100.00
Paying heads	10 – 2 kids – 2 free-2	6
Senior discount	20% × 1 senior × ₱1,050.00	– ₱210.00
Entrance total	(6 × ₱1,050.00) – ₱210.00	₱6,090.00
Stay total	₱21,000.00 + ₱6,090.00	₱27,090.00
Down payment	₱27,090.00 × 50%	₱13,545.00

Answer Down payment = **₱13,545.00** (stay total **₱27,090.00**)

free-2 went to regular heads, not the senior — waiving a regular head saves the guest the full ₱1,050.00, where waiving the senior would save only ₱840.00.

Problem 4 — Day use in a Cottage — no free-2

Given. **Sat 8 Aug, Day Time** (7 hrs, same-day check-out). **1 Cottage**. **10 pax** — 1 kid, 2 seniors.

Find. The down payment.

Step	Working	Amount
Nights	same-day schedule	1 (fixed)
Unit total	₱2,000 × 1	₱2,000.00
Rate per head	₱150 × 1 night	₱150.00
Free — kids	1 head × ₱150.00	– ₱150.00
Free — free-2	Cottage is excluded from the inclusion	₱0.00
Paying heads	10 – 1 kid – 0 free-2	9
Senior discount	20% × 2 seniors × ₱150.00	– ₱60.00
Entrance total	(9 × ₱150.00) – ₱60.00	₱1,290.00
Stay total	₱2,000.00 + ₱1,290.00	₱3,290.00
Down payment	₱3,290.00 × 50%	₱1,645.00

Answer Down payment = **₱1,645.00** (stay total **₱3,290.00**)

Cottage, Pavillion and Tent Pitching do not carry the free-2 inclusion, so every non-kid head pays.

Problem 5 — Two units on one reservation

Given. Check in **Tue 11 Aug**, check out **Fri 14 Aug** (3 nights). Schedule: **Night and Day. 2 × A-House Small** and **1 × Big Tent. 8 pax** — no kids, 2 seniors.

Find. The down payment.

Step	Working	Amount
Nights	14 Aug – 11 Aug	3
A-House Small × 2	₱2,250 × 2 × 3 nights	₱13,500.00
Big Tent × 1	₱1,800 × 1 × 3 nights	₱5,400.00
Unit total	₱13,500.00 + ₱5,400.00	₱18,900.00
Rate per head	₱350 × 3 nights	₱1,050.00
Free — free-2	2 regular heads × ₱1,050.00	– ₱2,100.00
Paying heads	8 – 0 kids – 2 free-2	6
Senior discount	20% × 2 seniors × ₱1,050.00	– ₱420.00
Entrance total	(6 × ₱1,050.00) – ₱420.00	₱5,880.00
Stay total	₱18,900.00 + ₱5,880.00	₱24,780.00
Down payment	₱24,780.00 × 50%	₱12,390.00

Answer Down payment = **₱12,390.00** (stay total **₱24,780.00**)

One reservation, one code, one down payment. free-2 is granted once for the booking, not once per unit. Combined capacity is 3 + 3 + 6 = 12 pax, so 8 fits.

Problem 6 — A one-week holiday

Given. Check in **Thu 6 Aug**, check out **Thu 13 Aug**. Schedule: **Day and Night. 1 A-House Small. 3 pax** — no kids, no seniors.

Find. The down payment.

Step	Working	Amount
Nights	13 Aug – 6 Aug	7
Unit total	₱2,250 × 7 nights	₱15,750.00
Rate per head	₱350 × 7 nights	₱2,450.00
Paying heads	3 pax – 0 kids – 2 free-2	1
Entrance total	1 head × ₱2,450.00	₱2,450.00
Stay total	₱15,750.00 + ₱2,450.00	₱18,200.00
Down payment	₱18,200.00 × 50%	₱9,100.00

Answer Down payment = **₱9,100.00** (stay total **₱18,200.00**)

This stay runs straight through Monday 10 August. Maintenance day bars a stay from starting or finishing on a Monday, not from passing through one — otherwise no week-long booking could exist at all.

5 Blank worksheet

Fill the right-hand column downwards. Each line uses only the lines above it.

Line	How to get it	Your figure
Nights	check-out date – check-in date (Day Time = 1)	
Nightly rate	from the rate card in section 3	
Units	how many of that accommodation	
Unit total	nightly rate × units × nights	
Entrance rate	₱150 Day Time, ₱350 overnight	
Rate per head	entrance rate × nights	
Pax	the whole party	
Kids (7 & below)	always free	
free-2	2, unless Tent Pitching / Cottage / Pavillion, then 0	
Paying heads	pax – kids – free-2	
Senior discount	20% × seniors still paying × rate per head	
Entrance total	(paying heads × rate per head) – senior discount	
Stay total	unit total + entrance total	
Down payment	stay total × 50%	
Balance on-site	stay total – down payment
